  Link: https://sivaranjanee.github.io/pottery_web/
- **Vigro Airline In HTML, CSS, Javascript**
  The Project is vigro airline using HTML, CSS, Javascript.
  Link: https://sivaranjanee.github.io/frontend/
- **Customer Churn Analysis Prediction In Data Analytics**
  The project is using Data Analytics to reduce customer churn. Using python predict the customer churn.
- **Data Embedding In JPEG Bitstream By Code Mapping**
  The project is to embed data directly in the bitstream of JPEG imagery. Data Embedding is performed by mapping a used variable length code (VLC) to an unused VLC. Concealment works by remapping run/size values of marked VLCs. So that standard viewers do not lose synchronization and display the image with minimum loss of quality.

Achievements & Awards

- Cybersecurity Associate, Government of Tamilnadu skill development corporation   2023
- Visual Basic, Csc Computer Education.   2009
  A Grade.
